Colorado Group

We knew going into it that finding the right space in Boulder that fit our needs and budget was going to be a challenge. Micah and Jason were excellent throughout the entire process. I felt they always had our best interest in mind and weren't afraid to steer us in another direction if the deal wasn't good. We ended up finding a space that needed a lot of work but gave us the freedom to make it exactly how we wanted. Jason and Micah were on top of everything throughout the entire leasing process and buildout. They made sure the work was done properly, on time, and that most importantly we were happy with the outcome.

Would I work with them again? Absolutely.
